how to apply your card sticker

Gather scissors and a rigid, smooth plastic like a credit card. Remove sticker from packaging.

Starting at a corner, begin to peel the sticker away from the backing, only peeling about an inch.

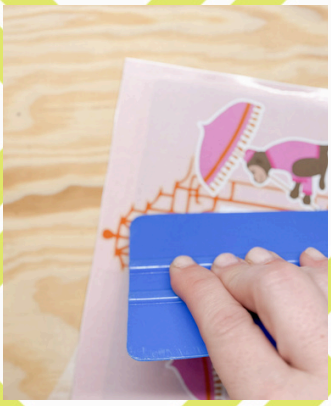

Align the edge of the sticker to the left/folded edge of your card.

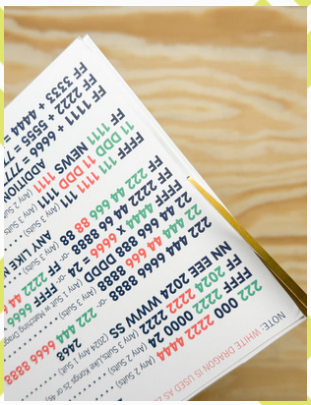

Working in small increments, peel and apply the sticker.

Work air bubbles out as you go and press firmly to adhere.

Carefully trim any excess or overhang from the edges
